

# Creating Facebook Fan Page – Part 2

You will learn how to create your own Facebook Fan Page.

1. Assuming that you already have your own facebook account.

In the About tab you need to tell people what your page is about.

The screenshot shows the Facebook page setup interface for 'Rachel Sanders'. At the top, there's a title 'Set Up Rachel Sanders'. Below it, a progress bar has four steps: '1 About' (highlighted in blue), '2 Profile Picture', '3 Add to Favorites', and '4 Preferred'. A tip box says: 'Tip: Add a description and website to improve the ranking of your Page in search. Fields marked by asterisks (\*) are required.' Below the tip, a text box contains the prompt 'Add a few sentences to tell people what your Page is about. This will help people be able to add more details later from your Page settings.' Underneath is a large text input field with the placeholder text 'Tell people what your Page is about...'. At the bottom, there's a text input field for 'Website (ex: your website, Instagram, Twitter or other social media links)'.

2. Just play around and follow all the needed information.

Profile picture Website  
url (optional)

3. You can add your Facebook Fan page to your **Favorites** so it will be easier for you to view or access it on the right side of your facebook page.

4. Then Save your Facebook page by clicking the Save button. That's it!
