Title of the Research/Topic MOBILE TECHNOLOGIES IN TEACHING AND LEARNING IN GAUTENG(SOUTH AFRICA)

Brief details/motivation for the topic. When given a chance mobile devices has the potential of changing teaching and learning .Since I work in the Information technology industry this topic will provide job satisfaction and show contributions technology can make to the Gauteng schools or institutions ,one of the contributions that technology can do is that it that it can be used to improve the performance of both learners and teachers.

The Aim of the Study The aim of the study is to investigate mobile technologies in teaching and learning in GAUTENG(South Africa)

[handwritten: YOUR BRIEF DOE'S NOT SHOWN THE NEED OF THE STUDY]

The Objectives of the Study.

1) To determine the impact of mobile technologies in teaching and learning in Gauteng(South Africa)

2) To make recommendation to the management of schools and department of education to use mobile technologies in teaching and learning in Gauteng

3) To determine the managerial aspect of mobile technologies in teaching and learning in Gauteng, to address the challenges and advantages of using mobile technologies in teaching and learning in Gauteng , to indicate mobile technologies that are available for teaching and learning in South Africa. Show that the usage of mobile devices makes teaching and learning successful, provide education in the use of Information and Communication Technology or ICT. To encourage higher-level thinking and creativity through ICT. To deliver students with a learning experience in instructional technology. To promote computer-based educational resources. To show are the benefits of mobile learning and the how important is technology is in education and showing the criteria used for technology to improve teaching and learning.

The expected research outcomes (expected results of the proposed investigation)

To help school management to make decision or help management of department of education to make decisions.

To address challenges and general advantage of implementing mobile technologies in South African schools/institutions.

Details of how data/information to carry the empirical research will be collected.

I will use a secondary data that has already been collected and recorded by someone else, it is readily available from other sources.

YOU CANNOT USE A SECONDARY DATA

Primary data must be collected
